EXPERIENCE

Consultant

RIA Advisory LLP

📅 03/2019 - Ongoing 📍 Pune

ORMB Consultant

- Designed and developed Pricing interface for client Anthem using the latest ORMB v2.8 pricing framework. Also developed the initial v2.7 pricing for insurance using plan rates.
- Designed and developed JMS Outbound interface for Customer, Membership and Rates Interface for Anthem.
- Wrote auto-payment algorithms and batches for client HealthPartners.
- Configured ORMB Batch Scheduler for client First America.
- Wrote Batches and algorithms for MoneyGram. Wrote queries to generate reports . Also responsible for creating and migrating data using the Oracle Blueprint Utility.

Associate Applications Developer

Oracle Financial Services Software Ltd

📅 07/2017 - 03/2019 📍 Pune

Oracle Revenue Management and Billing - Product Team

- Part of the team of ORMB - Flexcube Integration team. Developed the initial version of C1-ExternalChargeUpload business service which is now available in the v2.7 of the product. This service has been exposed as a SOAP webservice. Wrote Junits to perform unit testing for product algorithms and business services.
- The above service was also linked to a file request type for batch processing. Responsible for the development and maintenance of the file request type for to accept flat files (CSV, PSV format) and feeding them into the product.
- Worked with Oracle Data Integrator to automate data flow from product to other systems like Oracle E Business Suite . Developed Java utility to automate product Integration process using Oracle Data Integrator SDK which read parameters from a flat file, complete with logging.
- Maintained Linux and Windows applications for development and testing for the team which involved devops activities. Performed installation tasks for applications such as Documaker, Oracle middleware, E-Business Suite.
